

Azeem Subhani

Senior Full-Stack & AI Application Engineer

Lahore, Pakistan · azeemsubhani@proton.me · LinkedIn · GitHub

Summary

Senior Full-Stack Engineer with 4+ years of experience delivering SaaS, booking, payment, smart-home, and cloud-backed web platforms. Builds customer-facing and operational workflows with React, Next.js, Node.js, NestJS, Django, GraphQL, PostgreSQL, and AWS. Professional development in AI application engineering includes Claude API integrations, tool calling, Model Context Protocol (MCP), retrieval-augmented generation (RAG), vector search, and agentic developer automation.

Technical skills

Languages	TypeScript, JavaScript, SQL, HTML, CSS
Frontend	React, Next.js, Angular, Ionic, React Native, Tailwind CSS, Material UI, Redux, MobX, TanStack Query, TanStack Router, RxJS
Backend & Data	Node.js, NestJS, Express, Django, FastAPI, GraphQL, REST APIs, WebSockets, Socket.IO, PostgreSQL, MongoDB, MySQL, DynamoDB, TypeORM, Prisma, Mongoose
AI & LLM Engineering	Anthropic Claude API, OpenAI API, Function/Tool Calling, Structured Outputs, Prompt Engineering, RAG, Embeddings, Vector Search, Hybrid Search, MCP Servers & Clients, Agentic Workflows, Claude Code, Developer Automation
Cloud & Integrations	AWS Lambda, Cognito, CloudWatch, SES, SNS, CloudFront, EC2, RDS, AWS SAM, Docker, GitHub Actions, CI/CD, Firebase, Supabase, Stripe, Trust Commerce, Celery, JWT, OneSignal, Google Nest SDM APIs

Experience

Senior Software Engineer · Cinnova Technologies, LLC

July 2023 – Present

Lahore, Pakistan

- Led end-to-end delivery of SaaS and smart-home product capabilities using Angular, React, Node.js, NestJS, GraphQL, PostgreSQL, and AWS, reducing average response time by 40%.
- Modernized high-traffic React workflows with TanStack Router and TanStack Query, cutting page-load time by 45% and improving core user journeys.
- Integrated Google Nest SDM APIs and Ionic mobile capabilities for smart-home monitoring, improving device visibility and reducing critical-alert response time by 65%.

- Optimized AWS-hosted NestJS GraphQL services and PostgreSQL access patterns, improving query performance by 35%; implemented Stripe payments, subscriptions, and production notifications.
- Automated GitHub Actions CI/CD workflows and supported AWS infrastructure with 99.95% uptime, reducing deployment time by 70% and release defects.

Software Engineer · Techverx

July 2022 – May 2023

Lahore, Pakistan

- Developed Next.js and React applications that improved user engagement by 35% and reduced bounce rate by 20%.
- Built a secure payment portal with Next.js, AWS Amplify, AppSync, Cognito, Lambda, DynamoDB, and Trust Commerce, processing 500+ daily transactions.
- Engineered WebSocket-based chat with sub-second message delivery for 1,000+ concurrent conversations and improved reliability for AWS-backed systems serving 10K+ concurrent users.

Associate Backend Engineer · Nestosh

January 2022 – June 2022

Lahore, Pakistan

- Improved Salesforce Commerce Cloud and SFRA storefront performance, increasing page speed by 40% and conversion rate by 15%.
- Developed custom SFCC cartridges and third-party integrations; resolved 50+ production issues while reducing production defects by 45%.

Certifications & professional development

Introduction to Agent Skills — Anthropic

Building with Claude API — Anthropic

Introduction to MCP (Model Context Protocol) — Anthropic

Claude Code in Action — Anthropic

JavaScript and Node.js Certification — TestDome, September 2023

Education

Bachelor of Computer Science (BCompSc)

2018 – 2022

COMSATS Institute of Information Technology, Lahore, Pakistan
